

I have known Glenn for the better part of 20 years. Professionally as a hospice nurse for University Hospice. It didn't matter what time of day usually 5 min before closing or Saturday afternoon I knew, even before I called that our patients would have what they needed. It's funny how much we take for granted but that a pack of diapers or mouth swabs can change a overwhelming situation into an I can. Glenn never forgot what is important.

As a caregiver, of my parents, just ~~like~~ and those in the community I always went into the store for hospital gowns, bed pads, head sox and every measure of DME from recliner to stair lift. Glenn brought peace of mind with his kindness and gentleness towards the community he served. It is a great loss. I miss you friend. Peace be with your family ~~and~~ Kirsten Swenson, RN
